The R. R. B. nitemedies possess the great power to seen to the human system Health and long Lue, and to free the human family from point, aches, and all bodily infirmities.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CIRING DISEASE BY THE RADWAY'S READY RELIEF

been used by medical men.

It is safer than these dangerous remedics. The public will bear in mind that Chloroform, Morphine, Opium, &c., only stife the pain by simplying the seniors. So that the perceptive faculties loose the power of feeting, and that after the indinence of these narcotics have pussed from the system—the pain again breaks forth with this terrible bargs with renewed vasience.

ARAdway's deady Reside stops the poin and removes the cause of the diseased parts. It induses new life into the weak and diseased parts. It braces up the nerves, and establishes in the system a reaction of leadth and strength in place of pain, weakness and disease.

As a couldinest irritain, Radway's Ready Relief applied to the surface of the body, where there is Inflammation or compession, it will instantly scatter the congested blood, equalizes the circulation, and in a few minutes the most excruciating pain are removed. This may be seen in cases of Lumbago, Gout, and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the natural to case and combur.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his few account. Timely me of R. R. R.—

A wonderful Cure.

Rapids Paaisu, La., June loth 1966.

Massrs. Radway & Co.—Radway's Ready Relief has cured Peter May of Rheumatism, when there was no hope of his ever recovering. Theself of his stuation and it sent to min. His right arm and log was all perished. He had no use of them at all; but by the use of your medicine, m two months he was carrying the mad from Cherryville to Burr's Ferry. I objected. He said he must do somethin for a living. It has been fourteen months since he was cured. He is now well, and is working on his farm, and the whole cost of his cure for your medicine was five dollars.

We here direct the attention of the public to our newl discovered remedy—RADWAY'S REGULATORS; the possess the great curative properties of a Purgative, eath artie, aperient, sudorine, anti-dyspeptic, corrector and Regulator of the system. They are in fact the only perfec purgative or eathartic remedy that has ever been discover ence of discasse. One or two dosses of Radway's Regulators has frequently checked the progress of the most terrible diseases, and restored the system to health and regularity.

The vestablish new and improved principles in Medicine and secure the great and important priver of regulating to a healthy, natural and harmoniosa aron, each and every organ in the body. This great controlling power has never formed any parior of the properties of Tas popular Catharitic, Vegetable or Indian Purgative Pl.s., that have ever been in use.

Radway's Regulators rid the system from disease and restore the human body to health, on a reatirely different principle to the weakening, sickening and graping method of the common catharitic and purgative pills.

One or two of Radway's Regulators will remove the cause that occasions pain or sickness, or an irregular or unnatural action or condition of the ergins of the body, quicker, more effectual, and will less resuble to the patient than six or ten of the common calcurric or pargetive pills. The mement Radway's Regulators are tiken that he system addicted with disease, their equalizing efficacy begins; they search out the climents of disease whereve it may be seated; they act upon the whole surface of the intestines and bowels attracting the foul and morbid himours from the blood, grands, secreting vessels, and expeling these seeds officease first method, resisting the foul and morbid himours from the bowels attracting the foul and morbid himours from the bowels attracting the foul and morbid himours from the bowels are from the body, resisting the sease by purging from the bowels are first in the bay ten and thus obtain an evacuation in the same manner as the bow and regular action to the Liver, Rowels, Pancreas, Heart Kidneys, Bladder, Skin, and all other Visceria.

All of the common pursor the day, cathed Vegetable, In dian, Catharite, &cc., claim that they cure disease by purging from the bowels for intrinsing the mucation membrane, and thus obtain an evacuation in the same manne

WEDNESAY:::::: ::::::JINE 18 18... Democratic Meeting.

There will be a meeting of the DEMOCRAT-IC PARTY on Wednesday evening next, at the room on the south-east corner of Fifth and Jefferson streets, (entrance on Fifth), for the purpose of attending to IMPORTANT BUSINESS. Let there be a full attendance.

By the close of the present week the Presidential canvass for 1856 will have been fully made up. The Black Republican Convention, now in session at Philadelphia, is the last that is to meet this year, and by far the most important that has met, with the exception of the National Democratic Convention.

When compared with it the Know-Nothing Convention, which met at Philadelphia in Felruary and put in nomination Mr. Fillmore for the Presidency, and the Know-Nothing Convention which met in New York last week and presented two candidates for the Presidency, N. P. Banks and Commodore Stockton, will cut but a very sorry figures in the approaching Presidential conflict.

We have very little doubt but that, if ording ry prudence and tact is exercised by this black Republican Convention, it will be able to absorb inate all the elements of opposition to the Peeucratic party, with the exception of the small segment of the Know-Nothing party in the Southern States who can only aid them indirectly by throw ing away their votes upon Mr. Fillmore

This Black Republican Convention has been called together upon the only basis by which any formidable opposition to the Democratic party can be organized. The slavery question is the only living and vital issue in the pending canvess, and the adroit and astute haders of the Black Republican party have availed themselves by excluding all extraneous issues and embracing City. Off at 12 o'clock. their call for a Convention all who are opposed to the policy of the Democratic partythat is, all who are opposed to the principles of

the Kansas-Nebraska bill. This basis for the organization of the anti-Democratic party of the Union is comprehensive enough to include all who are not new regularly enrolled under the Democratic hanner. Hatred of the Democratic party, and its concomitant, hostility to the Kausas-Nebraska bill is the fourdation-stone of every political organization that now exists in antagonism to the American Democracy and its candidates. Southern Know-Nothings and their Northern anti-slavery brethren, abolitionists from Massachusetts and their Kentucky sympathizers can all meet in this Philadelphia Black Republican Convention without any sacrifice of principle er consistency.

Upon which one of the various candidates who have been presented by these various branches of the great abolition family the fusion will be made, it is uscless to predict. Before this article would reach the mass of our readers, it is probable that the Convention may have brought its deliberations to a close, and indicated the man. It can, however, be predicted with very great certainty that one of them, Mr. Fillmore, has not the corresponding week last season. the slightest chance. Notwithstanding the desperate exertions which have been made, and are now being made by the Southern Know-Nothings to secure for Mr. Fillmore the endorsement of the abolitionists, he will be most unceremoniously kicked out of the Convention.

The selection of Fillmore delegates from the city of Philadelphia, (as announced by telegraph) and the pledge of the Louisville Journal, the Southern abolition organ, that "no injustice shall be done them," will avail nothing with the rampant anti-slaveryites who will control the Philadelphia Convention. The non-committal policy, upon which Mr. Fillmore has staked about starting for Europe. himself, might have suited abolitionism as it caisted four years ago; but with a majority in the lower House of Congress, and uninbering among their leaders nearly all the telent and respectability of the opposition, they have no intention of being absorbed by the insignificant faction of which Mr. Fillmore is the representative.

It cannot, and ought not to be converted, that a union of the abolition factions of the country may throw some uncertainty over the issue of the pending struggle. It may be that they are stronger in the Pree States than has been anticiputed; but still, with the certainty of carrying such staunch Democratic States as Pennsylvania, Illinois, and Indiana, the election of Mr. Bachan an may be very eafely relied upon, provided that the South shall come up as a unit and cast its vote for him. This we firmly believe will be the case. We cannot think for a moment that there exists in any slave State any considerable body of men who will aid indirectly in the election of a black republican President by casting their votes for Mr. Fillmore.

THE NOMINATIONS -No other two journals respond more heartily and fraukly to the Cincury and the New York Journal of Compowerful or respectable interests. The former the Buffalo Commercial Advertiser, Mr. Fillmores speaks for the able and influential class of home organ, says: gentlemen active in politics throughout the South who held to the principles of Mr. Calof the great moneyed interests of the country that head and front in Wall stret, New York, State street, Boston, and Chestaut street, Philadelphia. This is the first time, when there had existed almost entire manimity on the part of to do with him. those last mentioned interests in favor of Democatic party nominations.

The Democracy of Oldham held an art husiastic ratification meeting in Lagrange on Monday the 16th inst. The Methodist Church was crowded to overflowing. Col. Wilson, of Floydsurg, was invited to the chair, and after calling the house to order, introduced His Excellency lov. Wright, of Indiana, who made one of his nost powerful and effective speeches, advocating he same dectrines on the slavery and other questions that he is accustomed to urge before the copile of his own State. His speech was receiv-

d with marked applause. Judge Lovering, of Jeffersonville, Ind., we next introduced. Ilis speech was short, cogent and to the point. The time character and been ing of Know Nothingism were clearly and ferci bly portrayed. When he concluded, Mr. Do llaven a promising young lawver of Lagrange was called to the stand and made his fret effort in the way of a political address. He hads from the old While party, one of those old liners who could not be induced to "follow the multitude to do evil," when the general stampede to Know Nothingism took place. Mr. De Haven is an en reedingly clever speaker, and acquited himself on this occasion with the highest credit. He is In fer the war, shoulder to shoulder with the Democracy, and will do gallant service in the cause between this and November. The rupts ons applause which greeted him on this fire flort was well deserved, and could not have been otherwise than gratifying to the eloquent young gentleman. At the close of the speaking, E. F. Walde, Esq., offered a hundsome set of esolutions, prountly endorsing the late Cincin-

ati platform and nominations of the National | she polluly seed of Democracy, which were manimously adouted. The meeting was then adjourned, every Demerat and old line national Whig being not only atisfied, but delighted and full of confidence and enthusiasm. Oldham promises well to do her part towards regenerating Kentucky and bringing her back to the Democratic fold.

He then addressed the convention at some once again in our Republic. We have assembled at the most important crisis in revolutionary history to inaugurate a new crain our history, the regeneration and independence of the North .-We are called upon to-day to lay down our old party prejudices and sacrifice all our feelings on minor topics for the great love of freedom. The great question before us, is, shall Kansas be not mitted as a free State, to this we must bend all our enegies. We are told this is revolutionary. It is false to attempt to outorce slavery in that Territory by under and illegal means. He continued his remarks in the same strain and closed with an earnest appeal for harmouy.

E. G. Spaulting, of N. Y., from the committee on credoutials reported the names of the non-contested delegates.

The committee also reported in fayor of calling on the States by balloting to report the vote of each, to cast three times its electoral, but not to

cast in any instance more votes than she had absolute rouresentatives. Kansas was to be allowed to vote as an electoral State. The report was adopted.

The President said the subject was not alluded

invited to address the convention. Mr. Wilson not being present Calch B. Smith, by invitation, addressed the assembly on the nationality of the Republican party. The seceders from the North American conven-

At the late riection in New Orleans, the Know Nothings succeeded in carrying the city by some 2000 majority, but the full vote was not polled by some 3000 to 4000. Like the election in this city in August last, riot and rowdyism prevalled .-Pistols, bowie-knives, brass-knucks, and bludcons ruled the day. Foreign-born citizens were eaten from the polls, and humbreds of native born citizens refused to exercise their vote amids the scenes of violence which were being snacted. It was only by virtue of armed force, that any

Democrat was enabled to vote. In order that our readers may see what a state of things has been brought about in New Orleans under a Know Nothing government, we quote the following from the True Delta of the 8th inst. committee of one from each State to report a which took no part in the late election, platform, and no ballotting be lad until the The party that forters such lawlessness and he The party that fosters such lawlessness and him tality is a curse to our country, and a disgrace to the place of their nativity. In any well regented, where person and property me protec he carrying of concealed weapons is a desturilly art, and should be fremished, as is made panishable by the statutes of this State. When however, society has recolved itself into chaoswhen all law and order are at an end-when but ies and stereotyped assassins walk the stricts immolested, as is and has been the rase in this ity for the last eighteen months, matters assum a new phase, and it behooves every man whos life is worth anything to himself or his family to be in a position to defend houself. Such a the case at present in New Urleans, and we wiventure to assert, without the fear of contradic ion by any decent man whose word is worth anything, that there is not one man in ten in this city, at this moment, who occupies any prominent position (we leave out the assessing who are always armed) who does not entry about his person some concealed weapon of defense. This fact is too net, rices to admit to dimbt or civil. Welt, the matter has come to lde to the bullies who at present territorize over the authorities and actually govern this city must make up his mind to run the risk of I cing muleted in the nice little sum of \$250 a day for carrying concealed weapons, or be every moment

this life at the mercy of assassins, without the means of defending himself. We would suggest to all parties who have any thing at stake in the community, and who may allies who uo govern the city, to go armed to the teeth-to carry their arms openly that id may see them, and above all, to use them on the right parties. We add a statement made under oath by Gen. When Mr. Lane went upon the platform three Lewis, Mayor of the city at the time of the election, on the trial of an individual for wearing concealed weapous. The accused was, of course, length, saying the anniversary of Bunker Hill concealed weapons. The accused was, of course, shall be the anniversary of the birth of freedom, an anti-Know Nothing-Know Nothings being

privileged in this respect: Gen. Lewis was next called. He bring swort and in reply to questions from counsel ter the defence, he said that on and after the day of the election (Menday last) the police of the city was in a very disorderly and disarganized state; from courts made to kim dail; he did not consider the fe of any citizen who was at all obnoximate the American party as safe. He thought, on that occasion, that every citizen should be armed in self-detense. Several citizens, aware of this came to him, as Mayor of the city, to ask permission to carry arms. He told them he could not give them any permission to do so. He told them they might carry weapons openly, if they thought it necessary to do so. His own private opinion was that any man who would have a chance at all of protecting his life should be around for the last few days.

Letter from Union County. MORGANFIELD, UNION COUNTY,

GENTLEMEN: The news of the nomination of Buchanan was received with entire satisfaction by the Democracy of this portion of the First District. Douglas was the general favorite, as he had endeared himself especially to the Democracy of the South, by his gallant and overwhelming assaults on the serried ranks of Northern fauaticism But it is generally conceded that Buchanan, above all others, is the man for the crisis. His Democracy is unexceptionable; his reputation as a slatesman pre-eminent; and above all his position is the most commanding, as the head and front and first choice of the Democracy of the North-eastern section of the Union, which will without doubt prove the theater of the dires struggle in the approaching contest between the allied forces of Know-Nothing and Abolition bigotry on the one hand, and National Democra-

y no the other.

Added to this, the friends of Douglas remen er that he is still young enough to " lide his nin," and they rest content.
Close upon the heels of the news of Buchanan's

minution, came "the glad tidings of great in the people's gift, of that noble-hearted, high minded and chivalele embodiment of Kentucky Democracy, John C. Breckinrldge. I say vation," hecause a selection for the office by the Cincinnati Convention is synonymous with and equivalent to the gift of the whice. Rest assured that the Democracy of the First District will do its deveir, under the lendership of the guilant knight of the Ashland District—the Bayard, without fear and without reproach. You may count confidently on 5000 to 5000 majority. We knew that a brilliant future awaited Breck nridge, when four short years ago we market the manly sphit and fervid eloquence whiel breathed through his malden Congressional speech, vindicating his old friend and chieftain Gen. Wm. O. Buller from the aspersions of his every subsequent step of his career in the halls of legislation, he exhibited every quality that marks the man, not only of brilliant intellect but of sound luart. We were scarcely prepare for his meteor-like ascendency over the galaxy of Democratic luminaries which bedeck the political

horizon; but the gratification is all the more profound for being unexpected.

The nomination of Breckinvidge is gratifying in more aspects than one. It marks the predom induce of genius over moneyed influence, and proves that sterling integrity is still at par value in the councils of honest politicians. Scheming and intriguing are no elements of Breckinridge character; and his wealth is the wealth of intel lect. Of this he has a fund upon which he can draw for ample resources to sustain himself and the interests and dignity of the people whom he represents, in the highest and most responsible office to which he may be called.
